S J Logistics Expands Project Cargo Capabilities with Dedicated Domestic Heavy Lift Services Vertical

Mumbai, July 31st, 2025 – S J Logistics is proud to announce a significant expansion of its Project Cargo Division with the introduction of a dedicated vertical for domestic heavy lift transportation services. This development marks a major step forward in the company's strategic journey to offer comprehensive, end-to-end project logistics solutions across India.

As part of its continued commitment to expanding its presence in the project cargo segment, SJ Logistics has now added its own fleet of specialized pullers, the company is strengthening its ability to execute complex and large-scale cargo movements across India - complementing its strong foundation in export project logistics and paving the way for a fully integrated, pan-India project cargo offering.

This in-house capability brings multiple advantages:

- **Greater flexibility** in handling large-scale, high-value cargo across varied terrains and project sites.
- **Reduced dependency** on external vendors, enabling tighter timelines and cost optimization.
- **Improved reliability and responsiveness** for customers in critical sectors such as power, infrastructure, oil & gas, renewable energy, and heavy engineering.

Introducing Our New Fleet of Pullers:

S J Logistics (India) Limited

On this achievement, Mr. Rajen Shah, Promoter & Managing Director of S J Logistics (India) Ltd, commented, “Our decision to bring heavy lift transportation in-house is rooted in our long-term vision of becoming a one-stop solution provider for project logistics. We’ve taken the first step by deploying our own pullers and, going forward, we aim to scale this into a broader inland logistics capability. By bringing domestic and export project cargo under one integrated division, SJ Logistics continues to evolve as a comprehensive and dependable partner for end-to-end cargo solutions - strengthening our ability to deliver seamless, customized services across borders and within India.”

About S J Logistics (India) Limited

S J Logistics (India) Ltd (“SJL”) is a globally recognized logistics service provider with over two decades of industry experience. Specializing in freight forwarding, transportation, warehousing, Non-Vessel Operating Common Carrier (NVOCC) services, and customs clearance, SJL operates on an asset-light model. This enables the company to collaborate with a vast network of partners, ensuring reliable, efficient, and timely freight solutions across the globe.

Safe Harbour Statement

Any forward-looking statements about expected future events, financial and operating results of the Company are based on certain assumptions which the Company does not guarantee the fulfilment of. These statements are subject to risks and uncertainties. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company’s operations include a downtrend in the industry, global or domestic or both, significant changes in political and economic environment in India or key markets abroad, tax laws, litigation, labour relations, exchange rate fluctuations, technological changes, investment and business income, cash flow projections, interest, and other costs. The Company does not undertake any obligation to update forward-looking statements to reflect events or circumstances after the date thereof.
